## **REASONS FOR ALLOWANCE**

**The following is an examiner's statement of reasons for allowance:**

The prior art of record fails to teach the combinations of limitations in the independent claims 18, 28, 35, 39 especially, "managing different key ranges of a database file with different values of free space...so that non-uniform distribution of free space is produced in the database file" as in claims 18 to 34 or on "uniformly distributing free space within first and second sets of rows of the file object by distributing free space differently for the first range of key values the for the second range of key values" as in claims 35-42 as cited in the BPAI Decision Document dated 6/18/07.

Art Unit: 2163

Dependent claims 19-27, 29-34, 36-38, and 40-42 incorporate the listed limitations by reference and contain limitations that further distinguish over the art of record. For these reasons, claims 19-27, 29-34, 36-38, and 40-42 are considered allowable over the art of record.
